# Master Salters since 1966

We lead the fish salting sector at the national and international level, producing more than 250,000 kg of salted products per year, which we sell throughout Spain and export to more than 10 countries.

**Our success remains based on traditional methods and our family dedication, with a close eye on innovation at all times.**

# Excellence Commitment Innovation

We believe in Quality. We only work with high-quality ingredients, and oversee every detail of all our processes. We hold IFS Certification Food 7, one of the most demanding food safety standards. We are committed to Innovation. We are the only company in the sector with our own quality laboratory and water treatment plant, as well as a gastronomic R&D laboratory for the Ricardo Fuentes Group.

# Tuna Loin (Mojama)

---

THE QUEEN OF SALTED  
PRODUCTS

Tuna Loin (Mojama) is the star of the salted products world. It is made from tuna loins, cured in a traditional salting process.

## How to tell what type of Tuna Loin (Mojama) it is?

The secret is in the marbling: if the slice has concentric circles, then it is Tuna Loin (Mojama) Extra, the highest quality with the deepest flavour, from close to the backbone.

100%  
Natural

## How to enjoy Tuna Loin (Mojama)?

This delicacy is traditionally served as a snack, in thin slices some 2 or 3 mm thick, drizzled with a little of good extra virgin olive oil to bring out its flavour, and accompanied by fried or roasted almonds.

There are plenty more recipes to be found, such as succulent makis or delicious tartare.

# Mullet Roe

---

THE CAVIAR OF THE MEDITERRANEAN

Mullet Roe is another salted products classic, an outstanding and highly prized delight. An unmissable feature of Mediterranean snack.

## Did you know...

in Japan it is known as Karasumi, and as a gift symbolises wealth and prosperity? In Spain, Mullet Roe is a familiar product in coastal regions of Andalusia, Murcia and the Valencia Region, but is now becoming increasingly popular throughout the country.

Traditional  
method

## How to enjoy Mullet Roe?

Sliced into very thin slices, sometimes macerated in a few drops of extra virgin olive oil, or served with fried almonds. Nothing else is needed. It can also be grated to add flavour to pasta dishes, pizzas or baked fish.

**Mullet Roe is one of our most popular products, and can also be enjoyed in a salad or on crispy toast.**

# Ling Roe

---

AN IRRESISTIBLE TASTE OF THE SEA

Ling Roe stands out for its striking colour, powerful flavour and light, silky texture. A real delight for any gourmet.

## Where does Ling Roe come from?

Ling Roe is sourced from the ling, normally found in the Atlantic. Processed in the traditional manner, the roe makes for a delicious and healthy food.

Delicious  
and healthy  
food

## How to enjoy Ling Roe?

Ling Roe is typically served as a snack, sliced into very thin slices, on toast drizzled with a little extra virgin olive oil, or simply with a few almonds. It adds a luxurious touch to a salad, or serves as a simple but delicious snack before dinner.

Ling Roe is much more than a starter. More and more restaurants are in fact now including it in their recipes.

# Yellowfin Tuna Roe

---

A DELICIOUS GOURMET BITE

Made with the roe of the Yellowfin Tuna (Thunnus Albacares), through a painstaking process which results in a product of intense flavour and delightful texture.

## Yellowfin Tuna Loin (Mojama) vs. Roe

Tuna is the source for both Mojama and this type of roe, although the Mojama comes from the loin, while the roe comprises the membrane-covered egg sacs of the female fish. Both, following a painstaking process of preparation, offer products to delight the most demanding tastebuds.

Intense  
Flavour

## How to enjoy Yellowfin Tuna Roe?

Yellowfin Tuna Roe has an intense and powerful taste, and so should ideally be sampled in very thin slices, as a cold snack. It is eaten above all in the Murcia Region, the province of Alicante and in the area around Cadiz, but is also popular in Italy, where it is known as “bottarga”.

Yellowfin Tuna Roe can be used not only as a snack, but also grated to add flavour to pasta, salads, broths or fish dishes.

# Bonito

---

CLASSIC MEDITERRANEAN SNACK

This is a mark of the cuisine of Spain's eastern coast, and the Mediterranean snack par excellence, Dried Bonito is sure to impress, with its distinctive flavour of the sea and delicate meatiness.

## How is Bonito prepared?

The most characteristic format is to salt the whole fish butterflied open with wooden sticks to make sure that all the product is dry. A traditional process performed in the age-old manner, by hand and one by one. These pieces give us the Bonito Loins, ready to eat, a hugely popular product with ever more devotees.

Produced  
one by one

There are numerous recipes that could include this delicious product, some of them traditional, and others more innovative, such as Japanese Dashi Soup.

▶ [SEE RELATED RECIPES](#)

## How to enjoy Bonito?

Bonito is available either "Dry" or "Fatty". The most traditional way to enjoy this delicacy is in a simple salad, accompanied by fresh tomatoes and drizzled with extra virgin olive oil.

# Gourmet Experience

EXPLOSION OF FLAVOURS

Ling Roe, Tuna Loin (Mojama) and Dried Bonito are our most popular salted products, all of them exquisite delicacies without which no Mediterranean spread of seafood snack would be complete.

## How are the products salted?

The process is entirely artisanal. Once the fish has thawed, it is cleaned, gutted and butchered. After being covered in salt for a few hours, it is washed and placed in the drying chambers. Our master salters check the texture of each one by one to ensure they are in peak condition and ready to eat.

Flavour  
of the sea

## The perfect snack

Above all in certain regions of Spain, would be complete without a tasty and colourful plate of salted products, including Ling Roe, Tuna Loin (Mojama) and Bonito, all finely sliced and served with fried almonds. A real delight for the tastebuds.

**Salted products is more than just a snack, and can be used in a host of recipes.**

# Smoked Products

---

UNMISTAKEABLE FLAVOUR

Both Smoked Tuna and Smoked Cod Roe have an unmistakable and intense flavour which can be enjoyed in a thousand different ways, either as a snack or in more elaborate recipes.

Unique  
flavour and  
texture

## What does smoking involve?

The smoking method involves treating the fish with smoke from low-resin firewood. This process gives an intense and hugely enjoyable flavour, blending the nuances of the wood with the inherent flavour of the very finest fish. The length of exposure to the smoke defines the flavour of each piece.

## How to enjoy smoked products?

Smoked Tuna can be served in slices, together with cherry tomatoes or nuts, added to salads, or served on toast with cream cheese... Smoked Cod Roe, with its soft texture, is perfect for dipping, spreading on toast or slicing to be served as snack.

Popular as they are as snack, these smoked products also have a host of applications in other types of recipe.
